GRAVITY GAMES

Partner with Local Schools to Advance Student Achievement

Behind every successful student is an exceptional educator, and exceptional educators come from innovative and empowered communities. Because of this, Google makes investing in educational organizations a top priority. We invite you to join us by helping to sponsor students for the Georgia Gravity Games.

What are the Georgia Gravity Games?

The Georgia Gravity Games is a gravity-powered car race sponsored by Google, the City of Douglasville and Georgia Tech. The event is an educational, hands-on activity, which highlights the importance of science, technology, engineering and mathematics (STEM) in a way that is fun for young people and gets them excited about these areas of study.

Who participates in the Gravity Games?

More than 50 teams including middle and high school students as well as adults across Georgia participate in the event. An estimated 2,000 spectators attend the race.

Where are the Gravity Games?

The Georgia Gravity Games will be held in downtown Douglasville, Georgia.

When are the 2018 Georgia Gravity Games?

The 2018 Georgia Gravity Games will take place on Saturday, November 3.

Who are previous sponsors?

Previous sponsors include GreyStone Power, Bank of the Ozarks and Atlanta West Carpets.

How can I help support the Gravity Games?

Support the children and schools in your local community by sponsoring a team at the 2018 Gravity Games. The car kit costs approximately \$600 - \$700, and kids need your support to purchase them. You can even place your logo or business name on your sponsored race car – just like NASCAR. This is an easy opportunity to support STEM education and help out local kids.

How does Google support STEM education?

The Georgia Gravity Games tie into Google's support for STEM initiatives in Georgia. In addition to the Georgia Gravity Games, the company sponsored area schools' robotics and STEM programs.
